Top Skills

Hyperparameter Tuning
Model Generalization
Backpropagation

Languages

German (Elementary)

Certifications

Data Visualization by kaggle
Machine Learning
AI For Everyone
Supervised Machine Learning:
Regression and Classification
Improving Deep Neural Networks:
Hyperparameter Tuning,
Regularization and Optimization

AZAN Pirzada

Computer Science Student | Focused on Artificial Intelligence, Deep Learning | Passionate About Innovation and Automation
Muzaffarabad, Azad Kashmir, Pakistan

Summary

I'm a Computer Science student who chose this field to understand how intelligence can be built, not just used. I'm passionate about exploring AI and its power to transform diverse domains — from healthcare to automation. I love diving deep into algorithms, understanding how systems learn and adapt, and connecting that knowledge with future technologies. My long-term goal is to create AI-driven solutions that push innovation forward and help humanity evolve with it.

Experience

Fluxxion

Data Analytics Intern

December 2025 - January 2026 (2 months)

Worked on practical data analysis tasks involving data cleaning, analysis, and insights generation

Applied analytical thinking to structured problems under deadlines and feedback

Completed the internship with an overall performance score of 83.33% and 80% attendance

Gained exposure to real-world analytical workflows beyond academic exercises

Deloitte

Virtual Intern - Data Analytics Intern

December 2025 - December 2025 (1 month)

- Completed a data analytics job simulation led by Deloitte, focusing on real-world business scenarios.
- Analyzed datasets to uncover patterns, risks, and insights in forensic and analytical contexts.

- Practiced structured problem-solving and data-driven decision-making, enhancing analytical skills.
- Gained valuable exposure to large firm methodologies in approaching analytical tasks and client-focused outcomes.

Datacom

Virtual Intern – Partnering with AI in the Workplace

December 2025 - December 2025 (1 month)

- Completed a virtual internship with Datacom, focusing on generative AI in workplace scenarios.
- Utilized AI tools for research, writing, and feature planning to enhance productivity.
- Created client-ready reports and presentations by refining AI outputs for practical solutions.
- Diagnosed website form issues through AI-guided troubleshooting and validation processes.

Education

University of Azad Jammu and Kashmir

Bachelor's degree, Computer Science · (October 2025 - February 2029)
